

ELECTRONIC VOLTAGE STABILIZER FOR AIR-CONDITIONERS

An ISO 9001:2015 Certified

MARK
TRANSFORMENTS

Sri Tulasi presents a highly efficient wall-mounting AC Voltage Stabilizer, built with the latest technology to provide complete peace of mind and uncompromised protection for your air conditioner.

Sri Tulasi Stabilizers are elegantly designed and equipped with high-quality transformers that ensure better cooling, higher efficiency, and an extended lifespan for both the stabilizer and the air conditioner.

Trusted for their excellent protection and high reliability, Sri Tulasi Stabilizers have been serving customers since 2025. Lakhs of installations across India stand as a testament to their reliability and customer trust. Sri Tulasi believes in continuous improvement through innovation, research, and strong core values rooted in business ethics.

Technical Specifications

Working input Voltage range	170-270 V, 50Hz	140-270 V, 50 Hz	110-270 V, 50 Hz	90-270 V, 50Hz
Output Voltage Range	As Required, as per specifications, and as per application. Generally in the range of +10%, +8%, + 5% etc. on nominal output voltage of 220 - 240 VAC			
High/Low Cut-Off System	Protects the connected Equipment against dangerous high voltage and Low voltage, cuts-off the supply at dangerous zone			
Technology	Micro Controller & IC Based electronic circuits for High reliability and self protection			
Time Delay	Time delay circuit provided to reduce surge currents and overloads during the switch on-off at frequent intervals, thus the load is protected			
Capacities	3 KVA / 4 KVA / 5 KVA / 7.5 KVA			
Energy Savings	Sri Tulasi Voltage Stabilizer are highly energy efficient, saves energy continuously, as it is incorporated with energy saving transformers and components			

We also design and manufacture a wide range of Voltage Stabilizers meeting the stringent specifications of Defence and Telecom applications, in compliance with IS 8448, IP 54, and JSS 55555 standards.

All Sri Tulasi Stabilizers are energy-efficient and help save power. The return on investment for Sri Tulasi AC Voltage Stabilizers is typically achieved within 20 months.
